

# QUEST-METHODOLOGY

De-risking Financial Investments in Real Estate

## How to make the right green investments in buildings?

The EU Taxonomy is a critical tool to unleash the potential of sustainable finance. A key question is how to be aligned with the EU Taxonomy and make investments that have a truly sustainable impact in buildings with optimal financial returns?

## QUEST as a bridge between technical expertise and green investments

QUEST provides technical due diligence to ensure renovations undergo effective quality management and estimates the value-impact of technical investments in building quality.
