QUEST NEWS

Final Event CLIMA2022: Workshop on the Building Performance Gap and EU Taxonomy

The QUEST consortium held its final event at the CLIMA 2022 HVAC World Congress on 24 May in

[Subscribe](#)[Past Issues](#)[Translate ▼](#)

closing the building performance gap.

[Read more on our website](#)

That's a wrap! Final QUEST meeting

The QUEST consortium met together for the final meeting of the project in Brussels on 30 May. During the meeting the partners went over all the outcomes that have been achieved throughout the project's duration (i.e. the [QUEST Tool](#), the [Technical Manual](#) & the Data Engine) and their impact, as well as follow-up steps in the future.

Press Release: Why quality in buildings matters

Ole Teisen, Chief Consultant at Sweco Denmark and the expert on Building Commissioning in the QUEST consortium, has written an article about the need to improve quality in buildings and how QUEST supports this cause:

[Subscribe](#)[Past Issues](#)[Translate ▼](#)

Why the EU should care about the quality of building projects

"We have seen before how a boom in construction affects the quality of building projects. QUEST helps investors calculate the financial value add of Quality Management Services to close the Performance Gap."

Ole Teisen
(Sweco Denmark)

Missed our previous newsletter? Don't forget to have a look at our Technical Manual and Tool!

The Manual provides an easy explanation on how different Quality Management Services (Technical Monitoring, Building Commissioning, Green Building Certification) can be easily integrated into building projects to ensure the technical quality and mitigate the performance gap. The [QUEST Predictive Valuation Tool](#) plays an integral part in this to budget QMS.
